

MEDIA LAW INTERNATIONAL (MLI) 2019 AWARDS PINTÓ RUIZ & DEL VALLE'S MEDIA LAW PRACTICE AS TOP RANKING (TIER 3)

MLI recognizes that “Pintó Ruiz & Del Valle is gaining prominence nationally through increased activity and market visibility. Clients praise the firm’s lawyers who ‘demonstrated a high capacity and talent to solve complex legal issues.’ The firm is noted for its advice on television and radio broadcasting rights and sports betting. Head of department Yago Vázquez is noted by clients who said: ‘Particularly in the area of media, both José Juan Pintó and Yago Vázquez have an excellent knowledge and experience that, combined with their accurate understanding of the sports business, allows for excellent legal advice’”. Internationally recognized for his abilities and knowledge, Yago Vázquez advises regularly different clients from the audiovisual sector, telecommunications and new technologies.

Media Law International's analysis of the legal market is based on an independent research that includes interviews to the law firms and its partners, and also interviews with the firm’s clients asking for their perspective on the firms they instructed and the individual lawyers they worked with. In its analysis about Spain, Media Law International cites our partner Yago Vázquez: “From a legislative point of view, this year the market has been shaken by the entry into force of the new GDPR that has generated a lot of confusion in the market which, in turn, has led to a significant increase of work in this field of law. From a business perspective, the most significant trends are the growth of virtual reality and e-sports, which nowadays cannot be considered as emerging sectors anymore as they have become a business reality to watch out for the next years.”
