

**FOOTBALL RADIO FEE REACHES THE SPANISH CONSTITUTIONAL COURT**

The plenary of the Spanish Constitutional Court decided to give lead to proceed with the unconstitutionality demand submitted by the Third Chamber of the Supreme Court against the article 19.4 in the General Media Law of 7/2010, March 31st, in its reform by Executive Order 15/2012, which allows free access to radio networks into football stadiums in order to live broadcast sports events. Thus, following the request of the Spanish National Football League, represented by our partners Ms. M<sup>a</sup> del Mar Martín and Mr. Yago Vázquez Moraga, the plenary of the court of constitutional guarantees agrees to look into the Third Chamber (Contentious-Administrative) of the Supreme Court's approach which understands that this regulation could violate articles 33 (right to property) and 38 (freedom to conduct business and enterprise economy) of the Spanish Constitution.
